SECTION 1: IDENTIFICATION

Product Name: Hema True® Lysing Reagent
Part Number: 501-553

Application of the substance / mixture: For In Vitro Diagnostic Use

Manufacturer/Supplier
Address: Clinical Diagnostic Solutions, Inc.
1800 NW 65th Avenue
Plantation FL, 33313, USA
Phone No: +1 954 791 1773
Fax No: +1 954 791 7118

SECTION 2: HAZARD(S) IDENTIFICATION

Classification of the substance or mixture

GHS Classification in accordance with 29 CFR 1910

This mixture does not have any hazardous classification.

The mixture has been reviewed in accordance with 29 CFR 1910. The product does not contain any substances at concentrations considered to be hazardous to human health or the environment.

SECTION 4: FIRST AID MEASURES

Description of first aid measures

General advice
Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

If inhaled
If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact
Wash off with soap and plenty of water. Consult a physician.

In case of eye contact
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
If swallowed
Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Most important symptoms and effects, both acute and delayed
None

Indication of any immediate medical attention and special treatment needed
No data available

SECTION 5: FIREFIGHTING MEASURES

- Suitable extinguishing agents
  Dry chemical, carbon dioxide (CO2), water spray or regular foam.
  - Caution: CO2 will displace air in confined spaces and may cause an oxygen-deficient atmosphere.

- Special hazards arising from the substance or mixture
  There are no unique chemical or reactivity hazards that would impact firefighting decisions due to the chemicals in this product.

SECTION 6: ACCIDENTAL RELEASE MEASURES

- Personal precautions, protective equipment and emergency procedures
  Minimize exposure by using appropriate personal protective equipment as listed in Section 8. Stop leak if possible. Keep unprotected people away.

- Environmental precautions
  Prevent liquid from entering sewage system, storm drains, surface waters, and soil.

- Methods and material for containment and cleaning up
  Block small volumes of spilled or spattered product with paper towels or similar materials.
  - Contain larger spills by placing absorbants around the outside edges of the spill. Absorb with any material suitable for water-based liquids - e.g. paper towels, universal sorbents, sand, diatomite, sawdust, etc.

  Clean the affected area. Suitable cleaners are:
  - Detergent or similar cleansing agent.

Dispose of spilled and contaminated material in accordance with Federal, State, and Local regulations. See Section 13 for information that may impact disposal of materials contaminated with this product.

SECTION 7: HANDLING AND STORAGE

- Precautions for safe handling: Use personal protective equipment required by the Laboratory.

- Measure to prevent fire: No special measures required.

- Storage requirements: Store only in the original container. Store in a cool (5 - 35 °C), dry place away from heat and direct sunlight.

- Further information about storage conditions: Protect from heat and direct sunlight.
SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with Occupational Exposure Limits

Exposure controls

Personal protective equipment

Always maintain good housekeeping and follow general precautionary measures. Do not eat, drink or store food and beverages in areas where chemicals or specimens are used. Wash hands before breaks, after handling reagents and specimens, and at the end of the work shift.

- **Breathing equipment:**
  
  Normal use and storage of product - respiratory protection is not necessary if room is well ventilated.

  Small-volume spills (e.g. small enough to clean up with a paper towel or small sorbent pad) - respiratory protection should not be necessary if room is well ventilated.

  Hazardous Materials Emergencies or Firefighting - use NIOSH/NFPA-approved respiratory protection.

- **Hand protection:**
  
  Wear water-resistant gloves if hand contact with the material is anticipated. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices.

- **Material of gloves and breakthrough time of the glove material:**
  
  The glove material must be suitable for use in a clinical chemistry laboratory and have a measured breakthrough time of at least 30 minutes, such as those with a Class 2 protection index per EN374 (or equivalent standard applicable in your region). NOTE: This recommendation applies only to the product stated in this Safety Data Sheet. When dissolving in or mixing with other substances, contact the supplier of approved gloves.

- **Eye protection:**
  
  Wear safety glasses or other protective eyewear. If splash potential exists, wear full face shield or goggles.

- **Body protection:**
  
  Normal use: protect personal clothing from spatters and small spills. Wear a laboratory coat (or other protective clothing required by your institution). Larger spills (e.g. that can saturate cloth): wear appropriate water-repellant covering over clothing.
SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

SECTION 10: STABILITY AND REACTIVITY

- **Thermal decomposition / conditions to be avoided**: No decomposition if used and stored according to specifications.
- **Possibility of hazardous reactions**: Reacts with strong acids and bases.
- **Conditions to avoid**: Sunlight, warmth, heat and fire.
- **Incompatible materials**: Strong acids and bases.
- **Hazardous decomposition products**: No dangerous decomposition products known.

SECTION 11: TOXICOLOGICAL INFORMATION

**Acute toxicity**
No data available

**Dermal**
No data available

**Skin corrosion/irritation**
No data available

**Serious eye damage/eye irritation**
No data available

**Respiratory or skin sensitization**
No data available

**Germ cell mutagenicity**
No data available
SECTION 12: ECOLOGICAL INFORMATION

- **Toxicity:** No further relevant information available.
- **Marine pollutant:** No
- **Additional Ecological Information**
  - **General notes:** Do not allow undiluted product or large quantities of it to reach ground water, water course, or sewage system.
- **Results of PBT and vPvB assessment**
  - **PBT:** Not applicable
  - **vPvB:** Not applicable

SECTION 13: DISPOSAL CONSIDERATIONS

**Recommendation for disposal of unused product:**
Dispose in accordance with federal, state and local regulations.

**Recommendation for disposal of packaging:**
Non-contaminated packaging may be used for recycling. Refer to applicable local regulations and institutional policies.
For disposal of contaminated packaging, refer to applicable local regulations and institutional policies.
- **Recommended cleansing agent:** Water with cleansing agents, if necessary.

SECTION 14: TRANSPORT INFORMATION

**DOT (US):**
Not dangerous goods

**IMDG:**
Not dangerous goods

**IATA:**
Not dangerous goods
SECTION 15: REGULATORY INFORMATION

- **SARA 302/304 (40CFR355.30 / 40CFR355.40):**
  The product does not contain listed substances.

- **SARA 313 (40CFR372.65):**
  The product does not contain listed substances.

**SARA 311/312 Hazards**
No SARA Hazards

- **California Proposition 65 (USA):**
  - **Chemicals known to cause cancer:**
    None of the ingredients is listed.
  - **Chemicals known to cause female reproductive toxicity:**
    None of the ingredients is listed.
  - **Chemicals known to cause male reproductive toxicity:**
    None of the ingredients is listed.
  - **Chemicals known to cause developmental reproductive toxicity:**
    None of the ingredients is listed.

**Pennsylvania Right to Know Components**
- Disodium hydrogenorthophosphate CAS 7558-79-4
- Sodium Chloride CAS 7647-14-5
- Sodium Sulfate CAS 7757-82-6
- Sodium dihydrogenorthophosphate monohydrate CAS 10049-21-5
- Dodecyltrimethylammonium chloride CAS 112-00-5

**New Jersey Right to Know Components**
- Disodium hydrogenorthophosphate CAS 7558-79-4
- Sodium Chloride CAS 7647-14-5
- Sodium Sulfate CAS 7757-82-6
- Sodium dihydrogenorthophosphate monohydrate CAS 10049-21-5
- Dodecyltrimethylammonium chloride CAS 112-00-5

**Massachusetts Right to Know Components**
- Sodium Sulfate CAS 7757-82-6
- Disodium hydrogenorthophosphate CAS 7558-79-4
Abbreviations and acronyms

CAS No: Chemical Abstracts Service number.
CMR properties: Carcinogenic, Mutagenic or toxic for Reproduction
STOT SE Specific target organ toxicity - single exposure
LC₅₀: Lethal Concentration. In ecotoxicology, the LC₅₀ is the concentration which kills 50% of a population of one species, within a specified period of time.
LD₅₀: Lethal Dose. The LD₅₀ is the dose of a substance which kills 50% of a population of one species and is expressed as weight (mg, g) or as weight per weight of test animal (mg/kg).
pH: pH is a measure of the acidity or basicity of an aqueous solution.
pKa: The symbol for the acid dissociation constant at logarithmic scale.
ppm: parts per million.
vPvB substance: Very persistent and very bioaccumulative substance.
WEL: Workplace Exposure Limits.
